

Rosa Belle

Colored Contact Lenses

Twenty years of progressive work and experience in the field of optics had led to the birth of Rosa Belle lenses.

As optometrists and experts, we have bet that this project will not only succeed, but will also top the list of colored lenses both in the Gulf and in the Middle East.

Our colored contact lenses are manufactured with the latest quality and standards using a unique technology, and carrying the most beautiful colors that suit all desires, by adding elegance and luster to the beauty of those who wear them.

MATERIAL
POLYHEMA

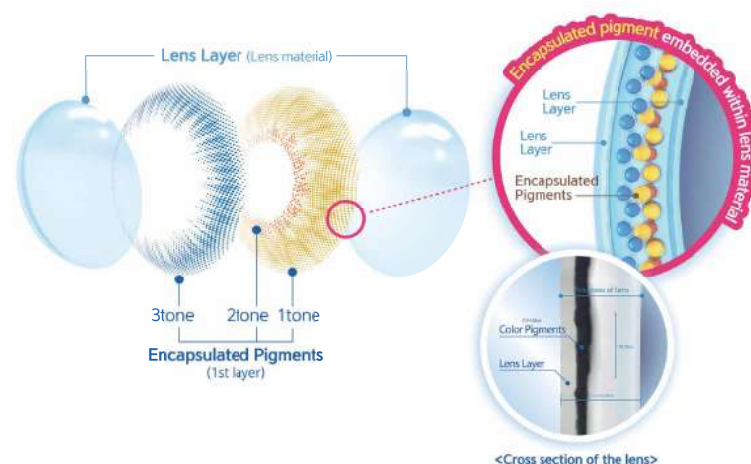

MADE IN
KOREA

THE TECHNOLOGY

This patented technology encapsulates color pigments and embeds them within lens material to avoid direct contact with the eyes. It resolves the fundamental issue of pigment exposure in conventional colored lenses and ensures safe and comfortable wear.

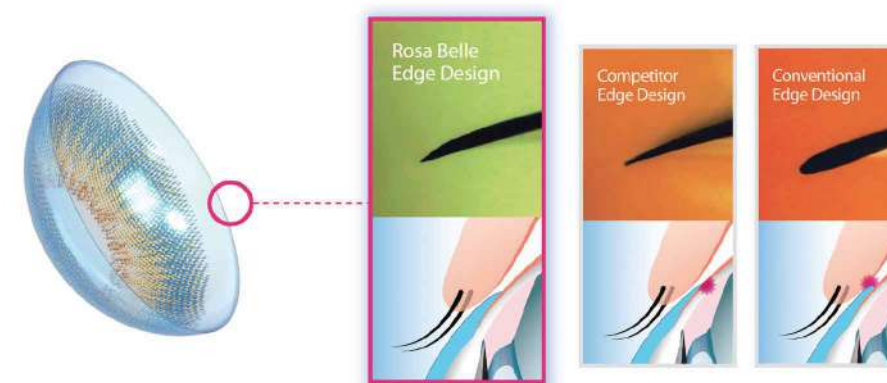

This product is certified by the UAE Ministry of Health & Prevention

THE CURVE EDGE DESIGN

The thin edge is designed to fit naturally on the cornea to give minimum stimulation and offer outstanding comfort. This improved edge design does not disturb tear circulation.
